Dear Hiring Manager,

I am writing to express my enthusiastic interest in the IT Intern position at FloSports, as advertised. I am a highly motivated individual, eager to apply my skills and learn within your dynamic sports media environment. Your commitment to providing exceptional content to passionate sports fans deeply resonates with my own passion for technology and its ability to enhance user experiences. I am confident that my experience aligns perfectly with the requirements of this internship.

My experience in developing and implementing efficient systems will be a valuable asset to FloSports. For example, I have experience in automating processes, which aligns perfectly with the "Participate in automation projects" responsibility. Specifically, I led the automation of PR validation pipelines with n8n and GitHub Actions. This resulted in significant time savings of 20 minutes per deploy. I am also proficient in diagnosing technical issues, including Linux drivers, and in building tools that optimize system performance. My experience in this area closely relates to the requirement of "Assist with IT support and troubleshooting for hardware, software, and network-related issues."

Furthermore, I am eager to expand my knowledge of IT support, system administration, and cybersecurity. My strong analytical and problem-solving skills, coupled with my ability to work independently and as part of a team, make me a great fit for this role. I am particularly drawn to FloSports' commitment to innovation and look forward to contributing to your team's success from January to April. I am available for on-site work in Waterloo.

Thank you for considering my application. I am eager to learn more about this opportunity and discuss how I can contribute to FloSports.
