Dear Hiring Manager,

I am writing with immense enthusiasm to express my interest in the Software Developer Intern position at Wealthsimple, as advertised. I am particularly drawn to Wealthsimple's mission to democratize financial services through innovative technology, a vision that deeply resonates with my passion for impactful software development. The opportunity to contribute to a company serving over 4 million users with cutting-edge solutions is incredibly exciting.

My background is a strong fit for the role, as highlighted by the skills and responsibilities outlined. For example, my experience building a real-time React analytics platform with Flask and PostgreSQL, serving 1,000 enterprise users, demonstrates my capacity to create scalable, user-centric applications. Furthermore, my experience architecting a route-aware fuel optimization widget in Kotlin + Java, which increased recommendation accuracy by 40% for in-vehicle navigation, showcases my ability to tackle complex challenges and deliver tangible results, matching the requirements of taking true ownership of my work.

Moreover, the emphasis on collaboration, continuous learning, and the use of modern technologies like Ruby on Rails, Java/Kotlin, and React aligns perfectly with my skill set and career aspirations. I am eager to join a team that embraces a culture of shipping often and iterating quickly. I am confident that my ability to adapt, learn, and contribute will allow me to make a significant contribution to Wealthsimple's mission. I am excited by the opportunity to learn and grow within a supportive and innovative environment like Wealthsimple.

Aman Zaveri
