Dear Hiring Manager,

I am writing to express my enthusiastic interest in the Software Developer position at Cortico Health Technologies Inc. Your mission to improve healthcare through innovative software deeply resonates with my passion for leveraging technology to create a tangible positive impact. I am particularly drawn to the opportunity to contribute to a team at the forefront of upgrading medical systems in measurable ways.

My experience aligns seamlessly with the responsibilities outlined in the job description. I have extensive experience with web development, including a full-stack platform in Next.js, Prisma, and PostgreSQL. In addition, I developed a real-time React analytics platform with Flask and PostgreSQL, demonstrating my ability to build and maintain complex web applications. I am also comfortable with both Linux and Docker. Furthermore, I am a continuous, self-motivated learner who thrives in a fast-paced environment, making me well-suited to the role's emphasis on experimentation and collaboration.

My skills also extend to project management and implementation consulting, which I gained through my experience in leading various projects. For example, I led automation of PR validation pipelines with n8n and GitHub Actions, saving valuable time for the development team. These experiences have honed my ability to understand client needs and ensure successful implementation, which aligns perfectly with Cortico Health Technologies Inc.'s focus on client success. I am available for a minimum of 8 months and am a Canadian citizen, which fulfills all required criteria. I am excited about the opportunity to contribute to Cortico Health Technologies Inc. and am confident I can make a significant contribution.
